WELCOME.

Welcome to my first Wick Cottage newsletter!

I just wanted to say Hi! and thank you for your interest and support during my first month in business!

It's flown by and the support and orders have been really encouraging, so thank you so much!

DREAMING OF WARMER DAYS!

Although the weather hasn't been too bad this Winter,(up to now!) it does feel like it's been a long one and I don't know about you but I'm totally ready for the light nights to come.....

HYGGE

Whilst we are waiting for the weather to warm up! I thought we could embrace the last few weeks of Winter with a shot of Hygge (pronounced Hueguh!) and the Danish love of all things cosy! - think warm blankets, open fires, coffee and candles. Curled up reading a good book or watching your favourite film!

HOW TO LIVE MORE HYGGE!

The Danish are constantly voted the happiest nation/ people in the world. They even have the world famous " Institute for Happiness" in Copenhagen.

The Danes have a love of enjoying the simple things in life and sharing it with people they like & love! - I think we can all relate to that!

HYGGE IN OUR DAILY ROUTINES.

It means slowing down, living and enjoying the present.

The Danish created Hygge as a way of surviving the dark, harsh winters and the repetitive boredom of the sameness of the long Winter days & nights.

We can all bring these simple moments of Hygge into our daily routines; lighting candles, having the cosiness of a real fire or simply enjoying a coffee, or picking up a bunch of flowers to brighten up our homes!

The Danish see these simple acts of daily life as special and moments that should be savoured not something to escape from and I think this is something we can learn from and maybe we might have the same levels of happiness that they have!
