Monthly Email Newsletter 2. 14.3.22

WELCOME.

Hello and welcome to newsletter 2!

With this newsletter I wanted to focus on Spring and looking forward, which is quite difficult at the moment with everything that is happening in  Ukraine.

None of us can escape the terrifying images of war and destruction, and I think we are all in need of some happy news or a boost of positivity!

POSITIVE BOOST!

With Spring looming and the promise of lighter nights and seeing the Sun again, it's also a good time to add a boost of colour to our homes!

SIMPLE TOUCHES!

Adding fresh flowers, new light and bright cushions and simple accessories are all inexpensive ways you can lift a room and your mood!

RE-STYLE WITH STRIPES!

As promised last month coastal styling with stripes.

Stripes can be playful and fun yet have a sophisticated side to them too!

They can bring definition and drama to a room whilst adding a relaxed seaside vibe!

FOCUS OF THE ROOM

You can change the focus of a room with different sized stripes, you can add width or depth depending on the direction of the stripe.

Candy stripes are an effective way of bringing colour into any room! it doesn't have to be just navy and white!

They look especially nice when teamed with florals or animal prints for a child's room!

STRIPES NEVER DATE OR GO OUT OF FASHION.

Wide stripes on furniture work well as a dominant room feature, use finer stripes if you would like a more simple and elegant backdrop, for example on a fine striped wallpaper.

Accessorise with cushions, throws and lampshades to finish the look or add them to a plain room to add a pop of colour and pattern!
