## WELCOME.

*Welcome to my Wick Cottage newsletter!  
Where did the Summer go? way too quick!*

*It seems that Autumn is upon us in a blink.*

*I hope my newsletter is a small change from all that is happening around us, and is a welcome distraction from all the doom and gloom.*

*whilst interior design and soft furnishings are trivial compared to recent world and local events, our home is where our heart is or so they say, and we do spend a lot of our time there, it's our place of refuge, where we are at our happiest, so let's add a bit of Autumn coastal styling to it to make it feel cosy as the nights start to draw in!*

## COSY COASTAL!

*Autumn coastal styling? I hear you say!  
Coastal styling is all about Summer! stripes and nautical themes.*

*Not necessarily! it's about adding layers and warmth to your existing look, add throws or a layered rug to make the look cosy coastal, swap out accessories as the Season changes to give your home a warmer look.*

*If you already have warm wooden furniture or any rattan pieces they will work perfectly against Country style checks and textured soft furnishings.*

## COSY COASTAL STYLING IDEAS.

Add cosy fabrics or swap out colours for a neutral palette of beige, browns and creams to add warmth.

## ACCESSORIES.

Transform your home in-expensively with simple accessories to make it feel warmer and more cosy coastal!

# FABRICS, COLOURS & TEXTURE

*Sumptuous warm earthy tones, all work perfectly together for the transition from Summer to Autumn.*

**GORGEOUS  
MEG MORTON FABRICS!**

*Blend plain fabrics with patterns and add texture with pom-poms, tassels or fringing on your curtains and soft furnishings to create warmth.*
